Continuing Legal Education

Army OneSource offers online Continuing Legal Education courses, which are designed to help better understand Military culture and to educate legal professionals on the federal laws affecting both Active duty and Veterans that could alter the nature and content of the legal advice being provided. These online CLE courses are **available free of charge** and on demand 24/7 to be completed at your convenience.

Family Law and Military (1 hr) Familiarizes the Family law practitioner with relevant law for the representation of a Veteran, Servicemember or Servicemember's Spouse in a Family law matter, including the four general laws that may apply and be of assistance.

Serving Those Who Have Served (35 min video) Explores the unique needs of reintegrating Servicemembers, including a candid panel discussion with active and former Military, and a summary of the issues from a former JAG and state Veterans administrator. A behavioral health practitioner provides valuable insight and offers tips on how to effectively provide counsel.

Military Cultural Competence (1.25 hrs) Explains Military culture including values, structure, policies, and expectations to help providers better understand, communicate, and interact with Servicemembers and their Families; utilizes a blend of experiential exercises and self-study.
